CERWIN-VEGA!
Turn it up.

Why is it, that from most concert seats the musicians look downright TINY but sound HUGE? While the seats could be the result of a particularly slimy ticket broker, chances are, the sound is a result of red surrounds with "CVs" on the dust

THE RADIUS EDGE CABINET ACTUALLY GIVES CUTTING EDGE PERFORMANCE
The edges of our E Series cabinets serve to reduce high frequency diffraction. So, point blank, lead guitars scream. Instead of weep.

domes. (Not unlike these bad boys.) For over 40 years, Cerwin-Vega has filled concert houses and movie houses with bass-blasting sound. Now we've designed the E Series to fill your house

E SERIES LOUDSPEAKERS

INTRODUCING 125 DECIBEL FURNITURE. CERWIN-VEGA HAS PUT ALL THE FURY

AND PASSION OF LIVE CONCERT LOUD MUSIC INTO A BOXED SET. THE E SERIES IS THREE FLOOR-STANDING TOWER SPEAKERS (THE 15" E•315, THE 12" E•312 AND THE 10" E•310), TWO BOOK-SHELF MODELS (THE 8" E•208 AND THE 6.5" E•26F), AS WELL AS A CENTER CHANNEL (THE 6.5" E•D6C). YOU CAN PUT TOGETHER A KILLER HOME AUDIO SYSTEM AND EXPAND IT INTO A FULL-TILT HOME THEATER. EACH SPEAKER MATCHES SONICALLY AND COSMETICALLY. AND WHILE YOU'RE SITTING IN FRONT OF THEM, WE'RE STANDING BEHIND THEM. WITH AN UTTERLY CONFIDENT FIVE-YEAR WARRANTY.

FLOOR STANDING TOWER SPEAKERS

BOOKSHELF SPEAKERS

CENTER CHANNEL

It may be the top of the page, but we're going right to the bottom. The woofers in the E Series are the original legends of rock and roll. High efficiency, high volume, high power handling.

All the while taking low bass down to 28 Hz. Our over-size polypropylene coated midwoofers give you fast transient response for sharp snare drums and tight vocals without even a whisper of distortion.

THEY GO PERFECTLY WITH ROCK, RAP AND JAZZ. AS WELL AS YOUR LIVING ROOM. Our E Series grilles are clean, elegant and easily removable.

E N G I N E E R I N G Y O U C A N D A N C E T O

with the same 125-decibel, wake-the-dead, shake-the-living, big beat. If you want to build a great sounding system, the E Series offers you building blocks. You can fit a pair of our floor-standing tower models into your home audio or home theater listening area. And fill the room with 400 very loud watts of pure-pounding Vega bass.

Add a pair of our compact E Series bookshelf models and center channel speaker and you

get full-surround, gorilla-growling home theater. Quickly, simply, and seamlessly.

OUR 1" DOME TWEETER. IT'S LIKE SHOOTING CLAPTON OUT OF A CANNON.

EVER WONDER HOW LEAD GUITARISTS GET SO HIGH? SIMPLE, OUR E SERIES SOFT DOME TWEETERS TAKE SOLOS SMOOTHLY OVER 20,000 HERTZ. THEY'RE FERROFLUID COOLED WITH SELF-RESETTING CIRCUIT PROTECTION. SO YOU GET WIDE DISPERSION SOUND WITH FULL OFF-AXIS RESPONSE. AS WELL AS YEARS OF GREAT HIGHS. WITHOUT THE OBLIGATORY VISITS TO BETTY FORD.

THE HEART OF ROCK AND ROLL HAPPENS TO BE AN 8-POUND MUSCLE.

BUILT ON ROCK-SOLID DIECAST ALUMINUM FRAMES THAT TOTALLY DISSIPATE HEAT, E SERIES WOOFERS HAVE UP TO 8-POUND MAGNET ASSEMBLIES WITH LONG-THROW VOICE COILS. THIS IS THE AUDIO EQUIVALENT OF MR. UNIVERSE. HIGH EFFICIENCY, HUGE POWER HANDLING, AS WELL AS INAUDIBLY LOW DISTORTION. FULLY COMPLIANT WITH FULL BANDWIDTH DOLBY® DIGITAL SYSTEMS.

WE'VE ENGINEERED A FEATURE THAT EVEN LETS YOU BE THE ENGINEER.

NOT ONLY DO YOU GET POWER WITH THE E SERIES, YOU GET CONTROL. IN THE FORM OF SEPARATE MID AND HIGH FREQUENCY CONTROLS. WHICH GIVE YOU THE FREEDOM TO CUSTOMIZE SOUND TO MATCH YOUR MUSIC, YOUR MOOD, OR YOUR LISTENING ROOM. IT'S OUR WAY OF APPEALING TO BOTH YOUR SENSE OF SOUND, AND TASTE.

BASS SO DEEP, WE ACTUALLY HAD TO DRILL FOR IT.

THERE IT IS, A GAPING HOLE IN THE DESIGN OF THE E SERIES CABINETS. THINK OF IT AS AN ESCAPE HATCH FOR MUSICAL ENERGY THAT'S OTHERWISE TRAPPED INSIDE. GIVING YOU A WHOPPING 3 EXTRA DECIBELS OF DEEP BASS OUTPUT. WE MAXIMIZE EVERY LAST WATT OF ENERGY SO YOU GET MAXIMUM POWER HANDLING, MAXIMUM VOLUME, AND MAXIMUM RUSH.

Tweeters? 1" soft-dome, ferrofluid-cooled works of audio art. Your room will be filled with sound, not speakers. Our small footprint E Series tower models will occupy significantly less floor space. All of which can send you into a state of live-concert-every-night-in-your-den euphoria. And send you promptly into a Cerwin-Vega dealer. If you're looking for excellence, remember, it begins and ends with "E".

WITH THE E SERIES, EVEN THE SPECIFICATIONS

ARE LOUD

E•315

15" FLOOR STANDING TOWER SPEAKER

15" 3-way
FREQ. RESPONSE
 28 Hz - 20 kHz
POWER HANDLING
 400 Watts
SENSITIVITY (1W/1M)
 102 dB
IMPEDANCE
 Compatible with receivers
 rated 8 ohms or less
PROTECTION
 Self-resetting PTC (tweeter),
 Fuse (system).
